Resume

About me

My career aspiration is to be a Frontend developer. In my leisure time, I develop personal projects using HTML, CSS, JavaScript, and React.js. I am driven to further my skills in this area and continuously enhance my abilities.

Experience

2022.08 - 2022.09 | Intern B2B Soft sp. z o.o. - Professional services for companies, Zabrze

Modernizing the company's application to meet current standards using the combination of SharePoint, React.js, TypeScript, Fluent UI, and Docker.

2022.03 - 2022.04 | Intern Piekary.net - Local internet retailer, Piekary Śląskie

Configuring and backing up configuration files, setting up network devices, testing the infrastructure for defects, and welding fiber optic cables.

Projects

E-Commerce Website

A fully functioning online store created by a team of two people, modeled on Morele.net. In the project, we used technologies such as HTML, SCSS, React.js, Django and Bundler Parcel.js.

Business website

The website showcases a sample design for a company offering various services.

Courses

2022.03 | Frontend Masters
Complete intro to react v7

Acquiring knowledge in React, its work environments, and tools. Exploring the latest advancements in React, including hooks, effects, and context. Getting familiar with tools such as Parcel, ESlint, Prettier, and the React Router

2021.11 | Frontend Masters
JavaScript: The Hard Parts, v2

Studying callbacks, higher-order functions, closures, asynchronous programming, and object-oriented programming in JavaScript.

2021.08 | Frontend Masters
JavaScript: From Fundamentals to Functional JS, v2

Gaining proficiency in higher-order functions, closures, scope, and popular methods such as map, reduce, and filter, as well as promises, ES6, and asynchronous JavaScript.

Education

09.2019 – currently | Zespół Szkół nr 1 w Piekarach Śląskich
Specialization: IT technician
